

## Introduction to Frigid Zone Medicine

*Frigid Zone Medicine (FZM)* is an international journal published by De Gruyter under the sponsorship of Heilongjiang Health Commission and supervision of Heilongjiang Health Development Research Center, China.

*FZM* publishes articles on the latest research results and leading developments in the field of frigid-zone medicine in biology and biomedicine, providing an international academic platform for the local and overseas researchers of related fields. The scope of *FZM* covers basic science and translational research of pathophysiology, pharmacology, medical biochemistry, medical molecular biology, medical genetics, medical immunology, medical microbiology, clinical medicine and traditional medicine. The column consists of Editorial, Review, Original Article and Case Report. In addition, *FZM* also publishes comments from outstanding experts, clinical guideline, letters, new methods and technologies, etc. in this field. *FZM* aims to build a high-quality international medical platform for academic communication and development, lead the academic study of frigid-zone medicine, and ensure rapid dissemination of important scientific achievements to the public all over the world.

The Editor-in-Chief is Baofeng Yang, Former President of Harbin Medical University, China, and an Academician of Chinese Academy of Engineering. The editorial committee comprises scientists dedicated in frigid-zone medicine from China, Canada, US and Russia. Aiming at high-level international journals, *FZM* strictly complies with the international disciplines and strategies of the editing and publishing. All of the reviewers are internationally renowned experts following the standard peer-review process. *FZM* is an open-access journal, and all articles are published

online with free and permanent access.

*FZM* was launched in 2021. Prior to its formal launch, it was listed in the project of “New Journal at a High-Starting-Point” supported by China Association for Science and Technology.

*FZM* invites contributions from all over the world. We will try our best to promote your academic achievements to the world in a fast and efficient way.
